

ACT NOW TO SAVE MĀUI DOLPHINS

The ~60 Māui dolphins left in the world face a real threat of extinction.

If we act now, together we can save them.

**HAVE
YOUR
SAY**

The Threat Management Plan (TMP) review is our chance to ask for serious protection for Hector's & Māui dolphins and our marine environment.

WHAT'S NEEDED

A ban on net fishing, oil exploration, drilling and seabed mining out to the 100m depth contour throughout dolphin habitat is needed for long term survival of these species.

Submit to the TMP and help guide our government to take serious protection measures.

SUBMIT BY 19TH AUGUST

The best way to submit on the TMP & make your voice heard is by emailing dolphintmp@doc.govt.nz

Visit www.whaingaroa.org.nz to find the community created submission guide.
